

Course Name: Microsclerotherapy Ref: TVC Cost: £999 plus VAT

The Whiteley Clinic's Microsclerotherapy for leg thread veins course by Mr Mark Whiteley

This course is aimed at doctors and nurses who wish to treat leg veins safely and successfully. This course has now been running successfully for over 5 years with excellent feedback and reviews from previous delegates. During the course, the anatomy and pathophysiology of veins and thread veins is taught - as are the principles and practice of Doppler ultrasound. Microsclerotherapy techniques are taught and delegates practice on models and, on the final day, volunteers with leg thread veins. Delegates pass the course when they complete a MCQ exam on the final day and demonstrate competent microsclerotherapy technique.

Course Location

Guildford

Course length

2.5 days

Course breakdown

Day one

Full day of teaching sessions by Mr Mark Whiteley, including an informal debriefing, and opportunities for questions

Day two

Following a morning of theory including a written test, delegates will observe the procedure, and then have opportunities to practice themselves.

Day three (optional)

Further opportunity for practice is provided to ensure each delegate is confident with the procedure before leaving at lunchtime.

Additional information

Certificates will be issued to those delegates who successfully complete a supervised procedure at the end of the course, and pass the written test.

CPD Certified.

A comprehensive course manual will be provided to delegates including treatment record sheets and consent forms.
